

WEDDING DIARY · BANGLADESH

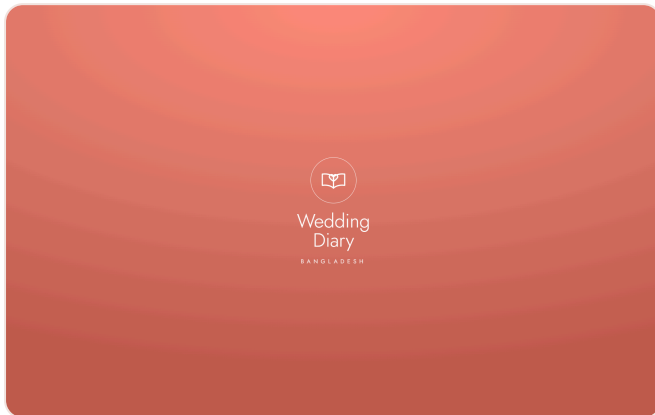

User manual

How couples, families, planners, guests, vendors and the Wedding Diary team use WeddingOS V1, from the first Holud to the last Reception photo.

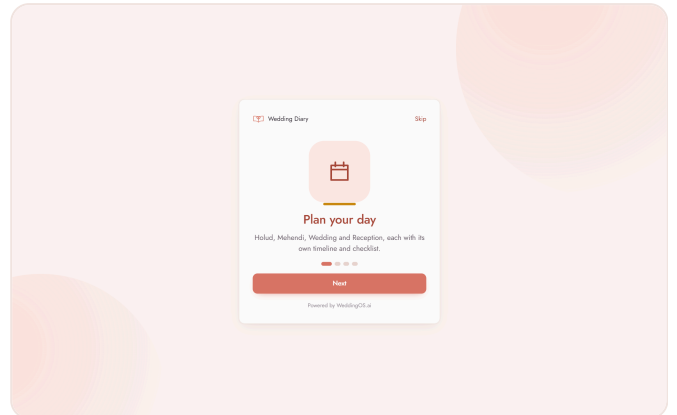

Version 1 · 24 September 2026 · Powered by WeddingOS.ai

Getting started

Open the app, sign in, and you land on the screen for your role

The coral splash screen opens the app.

Four onboarding slides: Plan, Guests, Budget, Vendors. Tap Skip at any time.

Demo accounts (password `Diary@2026`)

EMAIL	ROLE	WHAT YOU'LL SEE
<code>couple@weddingdiary.test</code>	Couple (admin)	Everything: budget, payments, team and settings
<code>planner@weddingdiary.test</code>	Planner (editor)	Events, checklist, guests, seating, invitations and vendors. No money
<code>family@weddingdiary.test</code>	Family (viewer)	Read-only schedule, guests and vendors
<code>live@weddingdiary.test</code>	Couple, Reception today	Live Mode and the Memory Vault
<code>vendor@weddingdiary.test</code>	Vendor	VendorOS for Dream Lens Studio

Financial clarity for your big day

Export PDF report

27% used

TOTAL BUDGET

₹25,00,000

Spent ₹6,75,500

Remaining ₹18,24,500

Still to pay ₹7,32,000

Smart insight - Attire & Jewellery is ₹2,40,000 over plan. Venue has ₹6,50,000 unused. Moving some of it would cover the gap.

Category breakdown

Committed = paid + pending

CATEGORY	ALLOCATED	SPENT	COMMITTED	PROGRESS
Venue	₹7,50,000	₹1,00,000	₹1,00,000	
Catering	₹6,25,000	₹42,500	₹42,500	
Decor	₹2,50,000	₹48,000	₹48,000	
Photography & Video	₹2,50,000	₹0	₹0	
Attire & Jewellery OVER	₹2,50,000	₹4,25,000	₹4,90,000	
Makeup & Mehendi	₹1,00,000	₹42,000	₹42,000	

Budget. Spending by category in taka (₹ lakh), over-budget warnings and a smart tip on where to move money. *Export PDF report* prints a clean copy for the family.

WEDDINGOS.AI

- Wedding AI**

AI Wedding Assistant

Your 24/7 planning partner, answering from your own wedding data

Wedding AI
Offline mode · answers from your data

Shubho shokal, Ayesha! Ask me about your budget, guests, schedule, tasks or vendors. I read your plan but never change it.

koto taka baki ache?

You've spent ₳6,75,500 of your ₳25,00,000 budget (27%), so ₳18,24,500 is left. Watch out: Attire & Jewellery (₳4,90,000 committed vs ₳2,50,000 planned) is over plan.

scripted

How much budget is left? Which payments are due? Who hasn't RSVP'd yet?

What should I do this week? Find a photographer under 60k Holud kobe?

Ask anything about your wedding... (English, বাংলা or Banglish)

What it can see

Events and timelines, checklist, guest counts, bookings and the marketplace, plus your budget and payments.

Guest phone numbers, emails and personal notes are never shared with the AI.

Bilingual

Ask in English, বাংলা or Banglish, e.g. "koto taka baki ache?"

Offline mode: answers come from your data using built-in rules. Add an **ANTHROPIC_API_KEY** to enable full conversations with Claude.

Wedding AI. Ask in English, বাংলা or Banglish ("koto taka baki ache?"). It reads your plan but never changes it. Without an API key it answers from your data in *scripted* mode.

On the wedding day

Live Mode for the couple and coordinators

The screenshot shows the 'Live Mode' interface of the Wedding Diary Bangladesh app. The interface is divided into several sections:

- Header:** Includes the 'Wedding Diary BANGLADESH' logo, a 'Live Mode' toggle, and buttons for 'Guest upload page' and 'TV slideshow'.
- Event Timeline:** A vertical timeline showing the sequence of events. The current event is 'Bride & groom entry' at 1:00 PM, marked as 'NOW'. Other events include 'Event setup completed', 'Guest arrival started', 'Lunch service', 'Family photos', and 'Farewell'.
- Guest Check-in:** A circular progress indicator shows 65% checked in. A search bar is available to find guests.
- Vendor Status:** A list of vendors with their current status (e.g., Photography: ACTIVE, Catering: READY, DJ & Music: SETUP, Wedding car: STANDBY).

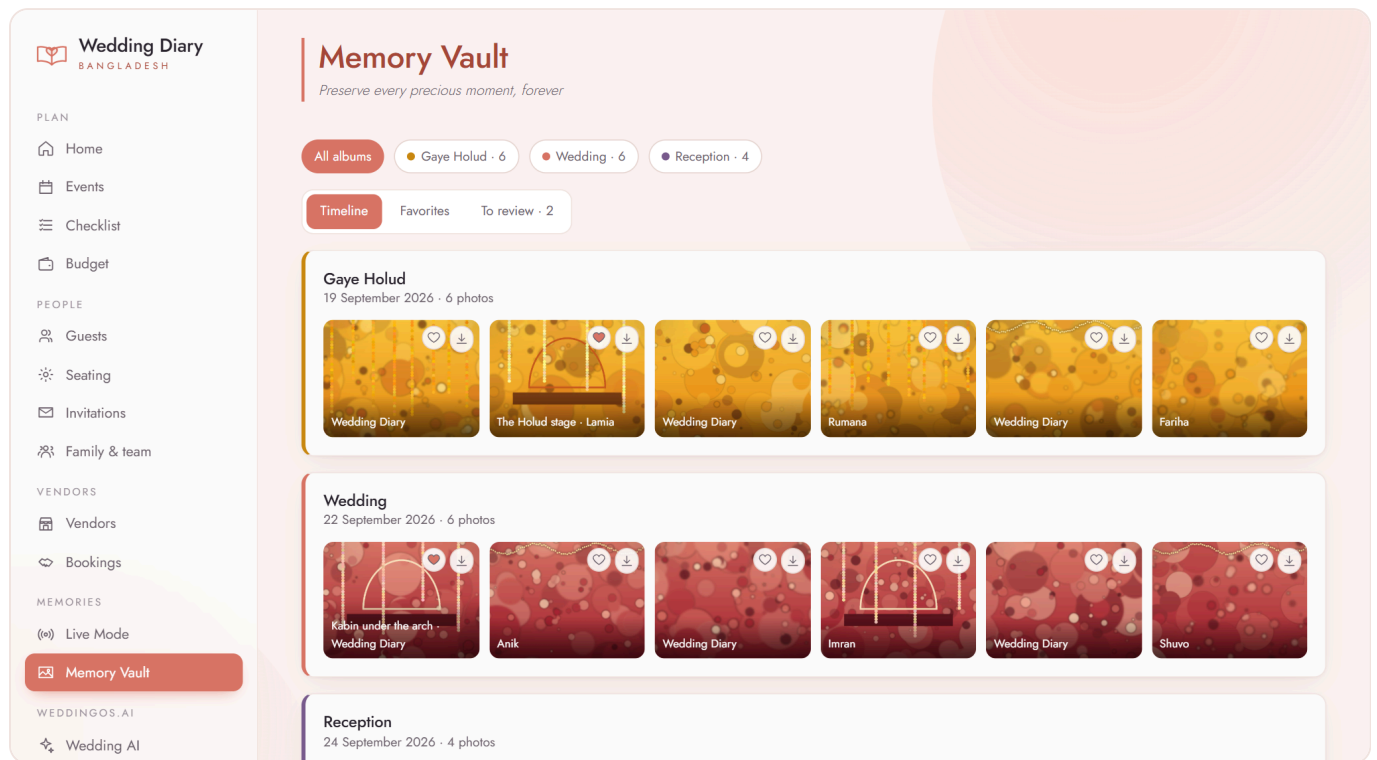

Live Mode. See what's happening now and up next. *Start* and *Done* move through the timeline. Running late? *+15 min* moves every upcoming item and tells the team. Check guests in by name, track vendor readiness (standby → setup → ready → active), and broadcast an update or an SOS to the team and vendors.

TV slideshow. Open it on the venue's smart TV. Approved photos play full screen with the QR code in the corner, and new uploads jump to the front.

Memory Vault

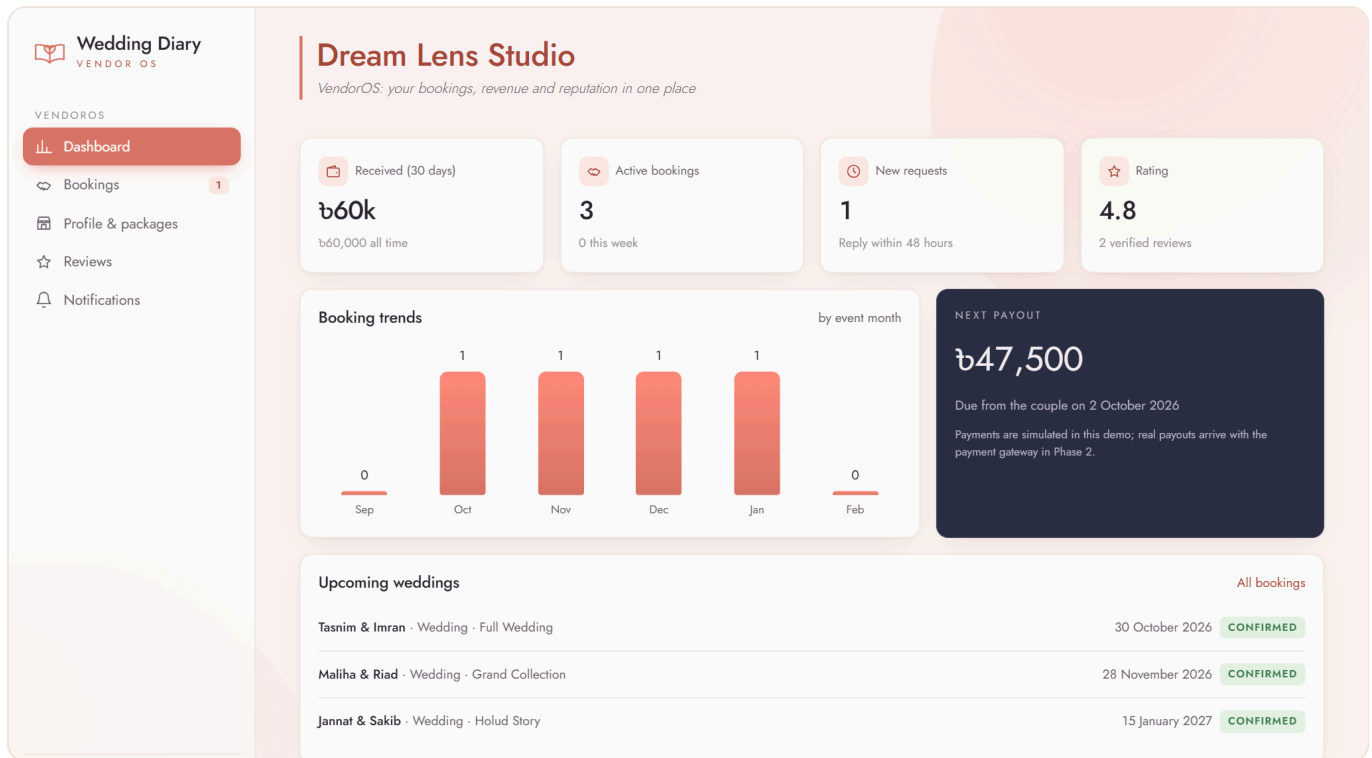

Every precious moment, organised by event

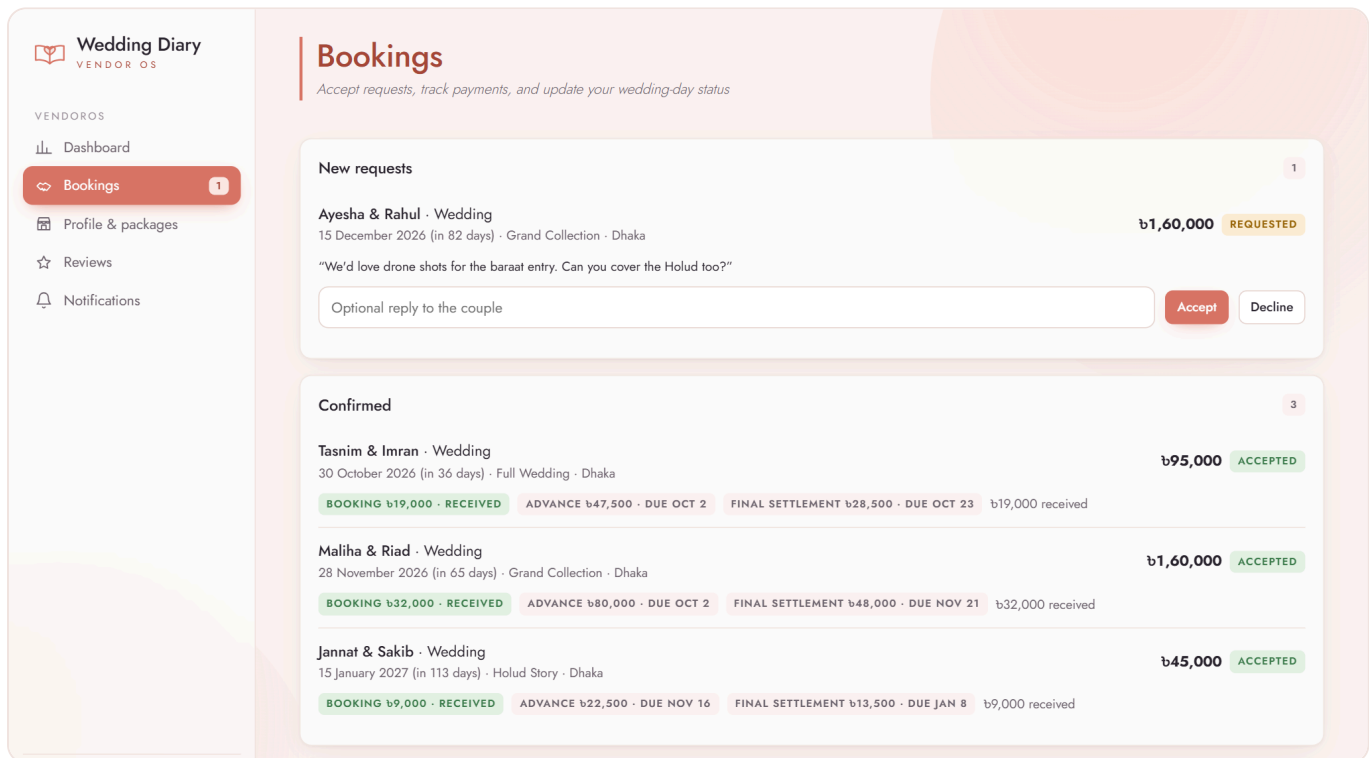

Albums for the Holud, Mehendi, Wedding and Reception, a favourites view, and a *To review* tab to approve or hide guest uploads. Download the originals at any time.

Vendors: VendorOS

Bookings, revenue and reputation in one place

Dashboard. Money received, active bookings, new requests, rating, a booking trend by month and your next payout.

Bookings. Accept or decline requests with a note. Accepting creates the couple's payment schedule. On the wedding day, set your status so the coordinator can see it.
